

YEAR-ROUND MANDATORY WATER CONSERVATION PROGRAM

Year-Round Mandatory Water Conservation Program in effect throughout the year.

Year-Round Mandatory Water Conservation Program restrictions shall be in effect throughout the year unless other more restrictive water restriction measures have been implemented. The City of Cibola will mail a public announcement to its water customers each April, and will post notice on its official City website by April 1*.

Applicability:

Year-Round Mandatory Water Conservation Program requirements apply to all water utility customers within the corporate limits of the City of Cibola. Water utility customers *within the corporate limits of the City of Cibola who receive retail service from a water provider* other than the City of Cibola shall meet either the water use restrictions specified for Year-Round Mandatory Water Conservation Program or the water restrictions established by their water service provider, *whichever is more restrictive*.

Utility Measures:

This announcement will be designed to increase water customer awareness of water conservation and encourage the most efficient use of water. A copy of the current public announcement on water conservation awareness shall be kept on file available for inspection by the TCEQ.

Voluntary Water Use Restrictions:

Water customers are requested to voluntarily limit the use of water for nonessential purposes and to practice water conservation.

Mandatory Water Use Restrictions

Restricted Hours:

From April 1 through October 31 – Outside watering is prohibited between the hours of 10 a.m. through 8 p.m. Water customers are required to limit the watering of landscaped areas with hoses with hose-end sprinklers or automatic irrigation systems.

From November 1 through March 30 – Outside watering is prohibited between the hours of 10 a.m. through 2 p.m. Water customers are required to limit the watering of landscaped areas with hoses with hose-end sprinklers or automatic irrigation systems.

Exception to Restricted Hours: Irrigation of landscaped areas is permitted anytime if it is by means of a hand-held hose, a faucet-filled bucket or watering can of five (5) gallons or less, or drip irrigation system.
